PROFILE

End-to-end Senior Product Designer with 20+ years in tech and 8+ years leading UX strategy for complex, large-scale enterprise ecosystems. Career defined by navigating high-stakes, regulated environments where user experience must coexist with strict legal constraints - across **Authentication**, **Onboarding**, **KYC** and **Player Account Management** in iGaming (Betsson Group) and Automotive Navigation (NNG LLC). Currently available as a Full Time or Fractional Senior Product Designer as well.

SKILLS

DESIGN & UX

- ✓ Product Design
- ✓ UX Design
- ✓ Interaction Design
- ✓ Figma
- ✓ Wireframing
- ✓ Prototyping
- ✓ Information Architecture
- ✓ User Flows
- ✓ User Journeys
- ✓ Design Systems
- ✓ UI Design
- ✓ Mobile Design
- ✓ Responsive Web

DOMAIN & INDUSTRY

- ✓ Regulated Industry
- ✓ Authentication
- ✓ Onboarding
- ✓ KYC
- ✓ Compliance UX
- ✓ Player Account Management
- ✓ HMI Design
- ✓ Automotive
- ✓ GPS Navigation

RESEARCH & ANALYTICS

- ✓ UX Research
- ✓ Usability Testing
- ✓ A/B Testing
- ✓ Contentsquare
- ✓ Optimizely
- ✓ Google Analytics 4
- ✓ Power BI
- ✓ Looker Studio

PROCESS & COLLABORATION

- ✓ Stakeholder Management
- ✓ Cross-functional Collaboration
- ✓ Agile / Scrum
- ✓ Jira
- ✓ SAFe
- ✓ Miro
- ✓ Leadership

TECHNICAL

- ✓ HTML
- ✓ CSS
- ✓ Lua
- ✓ Front-End Development
- ✓ API Literacy

LANGUAGES

- ✓ Hungarian · Native
- ✓ English · Professional

WORK EXPERIENCE

20+ years across high-stakes and regulated environments and enterprise ecosystems.

Nov 2023 - May 2026
2 yrs 7 mos
Betsson Group

Product Designer

Brand Experience | Mobile and Desktop Responsive Web

Took on broader strategic ownership across Betsson's regulated market portfolio. Led UX design for complex, multi-jurisdictional platform projects including post-acquisition migrations and market-specific compliance adaptations across multiple EU markets. Co-owned the full design lifecycle with PM and PO - from research, competitor analysis and audit through architecture redesign to detailed user flow and interaction design, stakeholder alignment, development handoff and continuous support, validation and UATs.

Aug 2021 - Oct 2023
2 yrs 3 mos
Betsson Group

User Experience Designer

Onboarding | Mobile and Desktop Adaptive Web

Part of the Onboarding & Customer Care product team, responsible for designing and iterating regulated user flows across multiple Betsson Group brands. Owned registration and login flow design on the onboarding side, and a broad suite of account management features including responsible gambling limit settings, timeout and self-exclusion flows, user profile management, and 2FA security setup. Worked within strict regulatory constraints while maintaining conversion-focused, user-centred design standards.

May 2020 - Aug 2021
1 yr 4 mos
NNG LLC

Lead UX Designer

Design Team (Core and Project) | Embedded Platform

Led a small team of designers across NNG's B2B white-label navigation portfolio, managing resources and design task allocation across multiple concurrent OEM projects. Contributed to the strategic transition toward a new API-based Onboard & Cloud hybrid platform architecture, shaping UX direction during a significant technology shift.

Jun 2017 - May 2020
3 yrs
NNG LLC

User Experience Designer

Project Design | Embedded Platform

Led design efforts for flagship embedded navigation projects delivered to major automotive OEMs including Mazda, Ford, and Toyota. Translated each manufacturer's HMI guidelines into compliant navigation screen designs and interaction flows, balancing brand consistency with safety-critical usability standards. Communicated design rationale to customer representatives, assessed feasibility with tech leads, and supported engineering teams through implementation handoff.

Sep 2011 - Jun 2017
5 yrs 10 mos
NNG LLC

Senior Frontend Developer

Core Navigation | Embedded Platform

Built the frontend of NNG's core embedded navigation product, implementing screen layouts from design specifications using a proprietary markup language based on HTML/CSS principles. Wrote Lua scripts to handle backend and API communication, bridging UI and application logic. Worked closely with designers and backend engineers across the full product build cycle.

Aug 2009 - Sep 2011
2 yrs 1 mo
NNG LLC

Frontend Developer

Core Navigation | Embedded Platform

Contributed to frontend development of NNG's embedded navigation product, implementing screen layouts and interaction logic for different components under senior developer guidance.

Oct 2007 - Aug 2009
1 yr 11 mos
NNG LLC

Manual QA Team Lead

Core Navigation | Embedded Platform

Led a small QA team testing NNG's embedded navigation software, coordinating test planning, bug tracking, and release validation across product cycles.

Sep 2006 - Oct 2007
1 yr 2 mos
NNG LLC

Manual QA Engineer

Core Navigation | Embedded Platform

Performed manual testing of embedded navigation software, identifying and documenting defects across functional and regression test cycles.

Dec 2005 - Sep 2006
10 mos
PDAMill

Manual QA Engineer

Games | Handheld and Mobile Platform

Tested handheld and mobile games, validating functionality and usability across device-specific builds.

EDUCATION

Foundational training in software development and geospatial technology.

1993 - 1994
BMSZC Neumann János Informatikai Technikum
